

User Stories – Six Nations Data Dashboard

User One

Male – Age 37 – Rugby Fan

I would be looking to get information on the performance of my team Ireland against the other teams in the championship.

I would like to have all the information on one page so that I can navigate easily.

User Two

Female – Age 19 – Student/ Rugby Player

I would be hoping to find out information on the top performing players for each country.

I would like to see something that is modern and bright and holds my attention.

User Three

Male – Age 15 – Schoolchild / Rugby Fan

I would be looking to get facts and figures for a school project I am working on for transition year.

I would like to get the information easily and not have to go through to many buttons and spend too much time finding data.
